Acosta and Andras Hernandez and Lieut. Alberto Guzman of the Cuban army have arrived here from Havana. They came to this country for surgical treatment. Col. Acosta has four troublesome wounds, which compelled him to absent himself from the field pending treatment. Col. Hernandez was pierced through the lungs, abdomen and legs by Mauser builets. Both men were with Gen. Antonio Maceo when he was killed.

Only a short time ago they led a successful raid against the city of Mariano, six miles from Havana. First Lieut. Guzman, who has acted as Col. Acosta's aide during the last two years, is only 15 years of age. He accompanied Gen. Maceo in his famous march from Matanzas to Manteul, Pinar del Rio province, and was wounded while charging by the side of Col. Acosta when the latter drove away from the field the Spanish guerrilias who were attempting to carry away the dead body of Gen. Maceo.

CONDEMNED TEA.

[ASSOCIATED PRESS DAY PEPORT.] YORK, Oct. 19.—There een submitted for the judicial consideration of the United States General Appraisers a question involving the destruction of about 20,000 pounds of Chinese teas, for which no provision is made in the tariff law. These impor-tations were made chiefly for consumption by Chinese residents of this city but they have been held by the customs authorities because the law expressly says that all teas brought into this country and not provided for in the tariff schedule shall be seized and de-The tea schedules of the new tariff

law embraces thirteen grades, which constitute all teas in proper use. The special brands now in jeopardy are the Pang-Yu-Tsi and Yuen-Shun, which are not mentioned in the tariff act. The Chinese residents of New York are much exercised over the exclusion of their teas, and a fw days ago they engaged counsel and appealed to the engaged counsel and appealed to the treasury department. The Consul called upon Secretary Gage, and the latter ordered a special restraining order. Representatives of the Chinese plead ignorance of the law regarding the particular importations under consideration, and declare tha the Chinese prefer the Pang-Yu-Tsi and Yuen-Shun teas above all others. The value of the 20,000 pounds of tea is about \$8000.

The Governor Says He Will Retire When His Term is Out-Ill-health the Cause-Will Support White for United States Senator.

[ASSOCIATED PRESS NIGHT REPORT.] address before the miners' convention today, Gov. Budd made the announcement that he would not be a candidate for reëlection, and that he would retire from politics forever when his term in office expires. He makes the further statement that under no circumstances will he be an opponent of Senator White, if the latter is a candidate to succeed himself. On the contrary, the Governor asserts that he would deem it his duty to support White.

The principal reason assigned by the Governor for his retirement is illhealth. He has been under the care of physicians for a long time, and they urged him to avoid excitement and seek rest. The last Legisl ture granted the Governor a six months' leave of absence, but he says that by a son of sickness and work he has been unable to go away.

He asserts that he has found the affairs of State very trying on his health, ecause of the numerous duties the Governor of this State is called upon to perform. He says that "the acceptance of the cases, work and worry of another term of office would be simply suicidal.'

AMERICAN GROCERY TRUST. application by Stockholders for

Receiver for the Company.
[ASSOCIATED PRESS DAY REPORT.] NEW YORK, Oct. 19.—Counsel on chalf of a number of stockholders in the American Grocery Company has made application to Chancellor McGill at Jersey City for a receiver for the company. The bill sets forth that the company was organized in June, 1894, and made money for two years. During the third year Thomas A. Marsalis made changes in the business methods which proved detrimental. Orders were not filled to the satisfaction of customers and salesmen who influenced much of the trade were forced to leave and take their trade with them. Several articles which had proved profitable were dropped from the stock. The bill also alleges that Mr. Marsalis sought to bring about a dissolution. In answer, Mr. Marsalis makes affldavit that at the time of the transfer of the old to the new company there were outstanding \$1,500,000 of preferred and \$1,000,000 of common stock. An assessment of 20 per cent. was levied on the preferred and 10 per cent. on the common stock of the Thurber-Whyland Company, predecessor of the American Company. WASHINGTON. Oct. 19.—Consul
O'Hara at San Juan del Norte, Nica-ragua, has made a further report, sup-plementing the one made last summer, concerning a contract made with the Atlas Steamship Company by the gov ernment of Nicaragua. In the former dispatch it appeared that an Italian, Tapellas, owned all the boats on the

Tapellas, owned all the boats on the San Juan River and Lake Nicaragua, and also a machine shop which formerly belonged to the Maritime Canal Company.

Although the Constitution of Nicaragua provides that no exclusive contracts shall be granted, the contracts of the government with the Atlas Company provides that for thirty years the company shall have the exclusive right to navigate by steam the Silteo Lagoon; that for the same time it shall have the exclusive right to construct tramways and railways along the San Juan River route to avoid obstacles in the river, and that for thirty years the government shall not grant subsidies to any other steamship line on Lake Nicaragua. The other concessions to the Atlas Company were considered extremely favorable.

Portuguese-Spanish Alliance

LONDON, Oct. 13.—A special from Madrid says there is much discussion at the Spanish capital on the subject of an alliance with Spain and Portugal, which is reported to be in process of negotiation. Rumors of All Kinds Aflont-Eight for Conviction and Four for Acquitfal the Likely Combination. Offers of Bribe Money.

[ASSOCIATED PRESS NIGHT REPORT.] CHICAGO, Oct. 19.-Another night of suspense is ahead of the defendant in the Luetgert case. At 9 o'clock the jury had gone to bed on cots which were placed in the courtroom, and it was announced by Judge Tuthill that even though, by one chance in a million, the jurors should wake up and agree on a verdict, there would be no announcement and the courtroom would under no circumstances be opened until 10 o'clock tomorrow.

State's Attorney Deenen remained in his office until all hopes of a verdict tonight had been abandoned, and then he closed up his rooms and went home He is still hopeful of a verdict, but SAN FRANCISCO, Oct. 19 .- In his naturally looks upon a disagreement as the most likely outcome.

There were rumors of all kinds afloat

luring the evening, all of them being to the effect that the friends of Luetgert on the jury were weakening. It was known during the day that the vote stood 8 to 4 and tonight the rumors were that it was 10 for the death penalty and 2 for acquittal. later story is that it stood 11 for hanging and one for acquittal. Juror Har-lev is admitted to be the stout friend of Luetgert, and he it is who is leading the fight for acquittal.

Over in the jail Luetgert was, during the evening, anxiously awaiting word from the jury-room. He tried as usual to keep up an appearance of

know; you go 'long. I won't be convicted, though; you can bet on that."

At 10, o'clock the Criminal Court building was dark as a pocket. The crowd which had hung around its entrance during the earlier part of the evening had disappeared. A solitary balliff sat at 'the foot of the stairs leading to the second story. Another sat at the upper end of the flight, two more were at the door of the courtroom and two more were inside, keeping watch over the sleeping jurymen. The opinion around the Criminal Court tonight was that all chances of a verdict had disappeared, and that the result is practically certain to be a disagreement. It is considered possible, and even probable, that the State will have nine or ten of the jury and the defense the remainder.

The chances tonight, however, seem to favor a disagreement of eight for conviction and four for acquittal.

LATER:—Just before retiring for the night the jury took another ballot, the vote standing nine for conviction and three for acquittal. The four jurors who have been standing out for acquittal are Behmiller, Barber, Holmabird and Harley. The two latter are still for acquittal, but either Behmiller or Barber has come over to the State.

There is much feeling against Harley among the jurors who favor the death penalty. They say he will not argue the case in any way, but sticks stolidly for Luetgert.

When the police learned two months ago that Gottleiba, whose age is 11 years, had stated that she saw Luetgert and his wife walking toward the Luetgert factory on the night of May 1, they took her to the Sheffield-avenue Police Station, and later placed her in the home of Matron Kurth. A contract was signed by Mrs. Kurth agreeing to pay the girl \$2 per week. This contract was read during the trial and offered as evidence. One of the jurors wanted to see it, and not finding it, sent for the paper.

Attorney Phalen was inclined to the opinion that the contract had been omitted purposely. State's Attorney Deenen emphalically denied his, and said he had no objection to its going to the jury. It was accordingly sent in.

RUSH TO ALASKA.

SOME TELLING STATISTICS FROM RAILROAD HEADQUARTERS.

Phirty-six Thousand Tons of Freight and Nearly Nine Thousand Passengers from Sound Districts Alone Inside Two Months.

[BY THE TIMES' SPECIAL WIRE.]

TACOMA (Wash.,) Oct. 19.-[Spe cial Dispatch.] The railroad companies have for the past month had men at work compiling statistics of the amount of business done between Puget Sound and Alaska during the rush of the gold excitement.

According to these figures, which According to these nature have been very carefully gathered, 1248 persons took passage for St. Michaels and 7628 went to Wrangel, Juneau, Skaguay and Dyea between July 17 and September 11. During this period 12. 000 tons of freight were shipped to St. Michaels and about 24,000 tons to the four ports in Southeastern Alaska. This includes business done at British Columbia ports. In addition to large passenger and freight list, 3860 mules and horses were shipped north; 1161 head of beef and other cattle, as well as over two thousand dogs.

The report closes with a note v trict. Probably if Portland and San Francisco freight and passengers were included it would nearly double the al-ready almost incredible figures of 36,-000 tons of freight and 8876 passenger: noved to Alaska inside of two months.

Of passengers that have returned the report says: "The exact number cannot so far be ascertained, as many have gone to Portland and San Fran-cisco direct, but a fair estimate of the number that will reach their destina-tion this winter is as follows: Of the 1200 who embarked for St. Michael's about three hundred will be scattered along the river banks to a point 1000 miles or so from its mouth. The remiles or so from its mouth. The re-mainder will either winter at St. Michaels or return on boats now at that point. Of the 8000 that took pas-sage for lower ports, not to exceed 3500 have succeeded in getting away from the lakes, and about twenty-five per cent. of this number will fail to reach the Klondike diggings by reason of mishaps on rivers and frost overtak-ing them. So far over two thousand ersons have returned to the Sound, and a conservative estimate would be that fully as many more will reach the Sound by the middle of November, of which number, unfortunately, 75 per cent. will be flat broke."

REINDEER THE SOLUTION.
[ASSOCIATED PRESS NIGHT REPORT.] SEATTLE (Wash.,) Oct. 19.-Dr Sheldon Jackson, United States super-intendent of Alaskan schools, who has just returned from Alaska, says: just returned from Alaska, says:
"There is but one solution to the transportation problem in Alaska, and that
is the reindeer. I believe that the
mines of the Yankon can never be fully
developed without the use of the reindeer. It is my belief that the government could, to great advantage to the
people in Alaska, establish reindeer
stations on the Yukon, all the way
from Dyea to St. Michaels. In this
way mails could be transported regularly and expeditiously, and the food
supply would never be allowed to get
to that point where a famine is imminent."

[BY THE TIMES' SPECIAL WIRE.] SAN FRANCISCO, Oct. 19.-[Special Dispatch.] The charges made by A. L. Colton against Dr. Edward S. Holden, director of Lick Observatory for twenty-three years, make lively read-ing. They will soon be considered by a special committee of the board of regents of the university. Holden is ac cused of being grossly incompetent to fill the position, and of having taken credit for work which he did not per

Colton says: "Dr. Holden's methods
n respect to this work are unscientific and dishonest, and a mere sham, and the work, when completed, will be worthless, and will involve a loss to the university of Prof. Aitken's time and salary for over a year, as well as the loss to the observatory of its reputation, should the catalogue be

Another of Colton's charges is that Dr. Holden has each year since his residence at Mt. Hamilton received an annual pass from the stage company but has each year sent a letter declin ing the pass and causing the letter of declination to be copied in the letter-books of the observatory, thus making them a part of the permanent records, and yet for years he has used the coaches of the stage company and

never paid it one cent of fare.

Colton says that aside from a few sketches of planets and of some of the nebulae. Holden has done no observa tional work since he has been at Mt Hamilton, and that the printed vol umes of the observatory disclose no theoretical work done by him.

another one of Colton's specifications is as follows: "In 1892, it was announced that a large amount of dynamite would be exploded in San Francisco Bay at a certain hour on a certain day. Holden adopted measures to ascertain the effect of the explosion at Mt. Hamilton. None of the astronomers event Holden chemical and the stronomers were the second s mers except Holden observed any mo tion. Holden, however, observed a distinct motion of the earth coincident with the hour fixed for the explosion. He wrote an account of his observa-tions and conclusions to newspapers in San Francisco, and sent the same by messenger to be posted in San José. He learned from the newspapers, however, that the explosion had not taken place at the hour fixed, and he thereupon sent a messenger in haste to overtake the bearer of the communication to the newspapers, and the observatory es

THE HEAVENS' SECRETS. Great Yerkes Telescope is Fast Finding Them Out.

[Special Dispatch.] The great telescope in the Yerkes Observatory, although focused only today, has already given promise of important astronomical dishis fellow-savants, who gathered here from all over the country to join in the exercises of dedication week at the observatory, that he had already discovered a third companion star to Vega. He found it solely because the Yerkes telescope was more searching than any other in the world. There have been hundreds of big glasses pointed right where this third com panion of Vega has been since creation but it took the Yerkes lens to put it in the catalogue of the heavens.

The professor also picked up twenty ew nebulae beyond the clouds-nebu locate. He also says his measurements of the distance betwen the stars by means of the Yerkes lens have been amazingly accurate, the variations on five consecutive observations being smaller than ever recorded before.

The convention of the Episcopal Missionary Council opened at St. Paul's Church at Miswauke yesterday. Holy communion was celebrated by Bishop Tuttle of Missouri. Bishop Morrison of Duluth delivered the sermon. Bishop Tuttle of Missouri was appointed chairman of the council during its meeting and Rev. Joseph M. Kimber of New York and Rev. Henry Ansley of New York were appointed secretary and assistant secretary respectively. There were in attendance at the opening of the council thirteen bishops, seventy-three clergymen and about one hundred and seventy-five other members.

DEBS SPEECHIFIES.

Tells Clonkmakers He Favors Abolishing the Wage System.
[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Oct. 19.-Eugene V Debs addressed a mass-meeting of cloak-makers. During the course of a long speech Debs said: "You can always rely on us in Chicago to render agree with the proposition of abolishing the wage system, but we can't do it today, or tomorrow or the next day, but while it remains we must do all we but while it remains we must do all we can until it is finally abolished, and gives way to the cooperative system. Every strike that is lost reduces the condition of the workers and hastens the overthrow of the wage system. While Debs was telling of the offer he had made to John D. Rockefeller to line up 50,000 starving and ragged men along the lake front, Chicago, to show the triumph of capital over labor, some one in the audience shouted: "One of these angels is dead now." "Peace to his ashes," said Debs. "Mr. Pullman would not arbitrate when he had nothing to arbitrate. He is on equality with toilers now."

Court of Honor Increase.

WASHINGTON, Oct. 19.—The Supreme Council elected over 180 candidates to be Knight Commanders of the Court of Honor. Those selected are from twenty-nine States and Territories. Others who had the honor conferred upon them include: Capt. Andrew G. Hammond of the United States army, Commodore Salverson of the Norwegian navy, and Capt. Malmberg of the Swedish navy. It was decided to erect a monument in this city to Gen. Albert Pike, late Commander of the Supreme Council. It will cost \$10,000.

He Suspected the Sombrero.

SAN FRANCISCO, Oct. 19.—Policeman Colen tonight arrested C. M. Forlin, an innocent-looking countryman from Santa Barbara, on suspicion that he was one of the Ukiah stage-robbers. The only apparent warrant for Colen's action was the fact that Forlin was wearing a sombrero. Forlin was taken to police headquarters, but was released immediately, having clearly proved his identity. Policeman Colen was reprimanded for making the arrest. He Suspected the Sombrero.

CARSON (Nev.,) Oct. 19.—After being out five hours the jury in the case of Walter Kerren, the boy being tried for burglary with intent to commit arson, was unable to agree and was discharged. It is understood that nine were for conviction. The other three believed him to be mentally irresponsible for the deed. The case will be tried again next week.

FLAGSTAFF (Ariz.,) Oct. 19.—[Special Dispatch.] The lumbering interests of the Greenlaw Lumber Company were, late last night, transferred to the Arizona Lumber and Timber Com-pany, for \$40,000. The sale includes the transfer of a timber belt 6x12 miles in extent, containing 57,000,000 feet of

The transaction is the subject of considerable comment, because of the rela-tions of T. E. Pollock, vice-president of the Arizona Central Bank of this city, to the negotiations. It is an im portant transaction, as it probably gives to the purchasing company the new five-year contract for ties and bridge timbers of the Santa Fé Pacific road, a contract amounting to about \$2,000,000. The company discards sawed for hewn ties.

WILLIAMS MADE CONFESSION.

Surprise for the Defense at the Trainwrecker's Trial.
[ASSOCIATED PRESS NIGHT REPORT.]

STOCKTON, Oct. 19.—Sheriff Cun-lingham and District Attorney Nutter sprang a sensation today in the trial of George Williams, the young man who is accused with another ex-con-vict, named George Schlagel, with having attempted to wreck two trains on the Southern Pacific between Lathrop and Modesto, a few months ago.

Williams is a native of this county, ad Schlagel is a young friend of his ho was in trouble. Williams was on before his partner, and was fight-a circumstantial-evidence case h Cunningham and Detective which Cunningham and Detective Thacker of Wells-Fargo have built up

oday Cunningham told of the chase for the fellows, and their capture near Hill's Ferry. After Williams had been in jail some time he sent for the Sheriff and wanted to get out of his trouble, he said, but the officer advised him to send for District Attorney Nutter. To him Williams said he wanted to turn State's evidence and tell on the third man in the second attempt, in which they placed a fire on the track and stopped the passenger train. Nutter refused to accept his offer to turn State's evidence, and later Williams called in the Sheriff again and asked him in the presence of Thacker to try to induce the District Attorney to accept his offer to confess.

He confessed the crime to the two officers, and pointed out in Cunningham's rogue's gallery the picture of the third man, who was in the second attempt, but not in the first Thacker told the same story on the stand, and said Williams wanted to turn State's evidence, and acknowledged that he and Schlagel were the two who piled ties on the track the first time. a few days before the second attempt to wreck the train. On the second attempt, he said there were three of them. and wanted to get out of his trouble, he said, but the officer advised him to

In addition to this, the people had strong circumstantial evidence and the evidence of a young man named George Cook, who was sleeping with Williams for a time. He told how Williams proposed to him to go with them in the train hold-up, and when he refused, threatened to kill him if he divulged the story.

The case of the defense was to be an alibit but what will be the course now is hard to guess. Witnesses had been summoned to prove an alibi, it is said, but the confession took the defense by surprise, the young man not having told his attorneys about it. The trial goes on tomorrow, when the defense will make its case.

THE PROSECUTION RESTS.

Defense Will Probably Call Mrs.

[ASSOCIATED PRESS NIGHT REPORT.] SAN JOSE, Oct. 19.—The prosecu-tion in the trial of Dan Dutcher for the murder of George W. Schofield surprised the defense today by sud-denly closing its case. Medical testimony took up the greater part of the lay, the State seeking to prove that schofield was killed several hours before the time given by Dutcher in his confession. Schofield's skull was introduced in evidence to 'show the course taken by the fatal bullet. Neither of the experts called by the prosecution gave any new testimony. Tomorrow the defense will begin the presentation of its side of the case. Mrs. Schofield, widow of Dutcher's victim, will probably be called, and is expected to testify that Dutcher killed her husband to save her life. There is but little doubt that Dutcher will also be called to the stand.

The general opinion here is that the trial will result either in an acquittal or a disagreement, unless the prosecution has a strong card in reserve to play when the case reaches the rerebuttal stage. In case Dutcher is acquitted, the charge of murder against Mrs. Schofield will be dismissed. fore the time given by Dutcher in his

SAN FRANCISCO, Oct. 19.—Prof. A. P. Hayne of the agricultural depart-ment of the State University has been making a study of olive culture in this State. He is now getting some inter-esting results from experiments made at Berkeley. He is gathering samples from various olive groves in the State so as to be able to make further ex-

so as to be able to make further experiments. He says:
"There are in California over ninety varieties of olives, and there are over \$6,000,000 invested in olive culture. Each section of the State possesses certain characteristics of soil, climate, etc., that make it suitable for one variety and unsuitable for others. I desired that every elive-grower in this riety and unsuitable for others. I desire that every olive-grower in this State send one pound of olives to Berkeley for analysis. We will pay the express charges and give the farmers a full report of our tests. The work is for the benefit of the farmers of the State."

AN AMERICAN KLONDIKE.

Pennsylvania View of the South-ern California Gold Field. [Scranton Tribune:] A recent issue of the Los Angeles Times contains an exposition of the mining industry and prospects in the territory tributary to that charming California city which is calculated to give Americans of every locality a new sense of pride in the ocality a new sense of pride in the icent natural resources of their own country. It is probable that every reader of the Tribune is aware of the attractiveness of Southern California as a fruit-growing center, but to many it will be news that in this same region there are today nearly one thousand stamps, some seven thousand men en

gaged in mining and a capital of \$20,-000,000 profitably invested in the mining industry: "yet," says The Times, "a beginning has scarcely been made in the development of the region's mineral wealth." Our remote contemporary continuer. rary continues:
"Within the limits of this country

eral wealth." Our remote contemporary continues:

"Within the limits of this country there is mining territory that would attract millions of capital were it located in some out-of-the-way section, and advertised in an attractive manner. Near Acton, fifty miles north of Los Angeles, there is a gold mine—the Red Rover—which, at a depth of 700 feet, holds out promise of becoming a veritable bonanza, and in the Sierra Madre range, within sight of the City Hall, there are deposits of gold and silver from which millions of dollars have been extracted in past years. Men are today unsuspectingly tramping over mineral deposits that contain fortunes. Only a few months ago a prospector in the settled portion of Riverside county noticed a plece of float lying by the side of the county highway, within a few miles of a railway, and after a brief search located a hill of mineral which now has millions of tons of good gold ore in sight

"There are," it adds, "very few mining sections in the world which offer such facilities for the profitable working of mines as does Southern California. The mild climate permits of work being conducted in the open air all the year round, a marked contrast to the condition of affairs which prevails in the latest El Dorado in Alaska. Supplies of all descriptions, including machinery, may be purchased in Los Angeles as cheap as, or cheaper than, in any other mining section of the United States. Gold is by no means the only valuable mineral that is found in Southern California. Among other minerals that exist here are borax, copper, cinnabar, iron, lead and marble. Little

valuable mineral that is found in Southern California. Among other minerals that exist here are borax, copper, cinnabar, iron, lead and marble. Little or nothing has yet been done in the development of these deposits."

In view of the intelligence now being received from the Canadian Klondike region of the beginning of a predicted winter of intense discontent among the rash seekers after fortune, who permitted themselves to be allured to that bleak area where absolutely no provision has yet been made for the support of a large immigration, it seems a pity that the gold-hunting mania so far as Americans are concerned does not first exhaust the mineral possibilities of our own land before impelling a perilous and for the greater part a vain exodus to foreign parts. The Los Angeles Times, which is a reputable paper whose representations merit confidence, has performed a genuine public service in making known at this time how and where American prospectors can add to their own and their country's wealth where American prospectors can add to their own and their country's wealth without incurring dangers beyond the power of the imagination to conceive.

FINNIGAN TO FLANNIGAN.

Superintindint wuz Flannigan;
Boss av the slection wuz Flannigin;
Whiniver the kyars got often the thrack
An' muddled up things t' th' devil an' back,
Finnigin wit to Flannigan,
Afther the wrick wuz all on agin,
That is, this Finnigan,
Repoorted to Flannigan.

Whin Finnigin furst writ to Flannigan,
He writed tin pages—did Finnigin;
An' he toul jist how the smash occurred;
Full many a tajus, blunderin' wurred;
Did Finnigin write to Flannigan,
Afther the kyars had gone on agin',
That wuz how Finnigin
Repoorted to Flannigan.

Now Flannigan knowed more than Finnigin

Now Flannigan knowed more than Finnigin—
He'd more idjucation—had Flannigan;
An' it wore'm clane an' complately out
To tell what Finnigan writ about
In his writin' to Muster Flannigan,
So he writed back to Finnigin:
"Don't do such a sin agin;
Make 'em brief, Finnigin!"
Make 'em brief, Finnigin!"
Min Finnigin got this from Flannigan
He blushed rosy rid—did Finnigin;
An' he said; "Till gamble a whole month's
pa-ay
That it'll be manny an' manny a da-ay
Before Superintindint, that's Flannigan,
Gets whack at this very same sin agin.
From Finnigin to Flannigan
Repoorts won't be long agin."

Wan da-ay on the siction av Finnigin On the road sup'rintindid by Flannig An' some kyars went off as they made the swerve; 'There's nobody hurted," sez Finnigin,

But repoorts must be made to Flannigan,"
n' he winked at McCorrigan,
s married a Finnigin, He wuz shantyin' thin, was Finnigin,
As many a railroader's been agin,
An' the smoky of lamp wuz burnin' bright
in Finnigin's shanty all that night—
Bliin' down his repoort, wuz Finnigin,
An' he writed this here: "Muster Flannigan:
Off agin, on agin.

-[Puck. DOLLAR WHEAT.

October smiles on us once more;
To greet the welcome guest
Dame Nature offers from her store
Full generously the best.
And though the birds are silent all,
Than their a song more sweet
Comes to the season's jocund call—
A song of Dollar Wheat.

In jingles in the hardened hand
With unfamiliar glee;
It wakens smiles throughout the land,
Like sunshine on the sea.
Hope's harmonies are on the wing
When wish and prospect meet,
And all the country joins to sing
The song of Dollar Wheat.

If the bid of the Los Angeles Elec-tric Company for lighting the city is accepted, the lighting department will end the fiscal year with a deficit of over \$9000. It is possible that the Coun-cil may decide to reduce the number of lights and readvertise for bids.

The Police Commissioners refused to make any recommendation upon the demands for saloon license rebates, and referred them back to the Council. The Chief of Police was instructed to sup-press the "wheel of fortune."

Upon the strength of an order from the Superior Court the Board of Su-pervisors yesterday allowed Contractor James H. Dovey's claim for \$1508.61 for work done on the uncompleted Rubio Cañon ditch, which has been the source of much litigation during the past year

Work on the ditch was obstructed by a restraining order issued at the in-stance of property-holders in the vicinity of Eaton Cañon, into whose ditch it was proposed to divert the storm waters of the Rubio district. By the action of the Supervisors, Dovey is allowed the money due him for work performed prior to the service of the

POLICE COMMISSIONERS REFUSE TO ACT ON SALOON REBATES.

They Send the Demands Back to the Council Without Recommendation-Wheel of Fortune to be Stopped-Deficit Threatened in the Lighting Department.

The Councilmen who endeavored to shirk the responsibility of passing upon the demands for saloon-license rebates last Monday by referring the petitions find that they must face the after all. The police board at its meeting yesterday morning unanimously voted to return the petitions to the Council without recommendation.

These claims originated some two years ago. Efforts were made last year to have them allowed by the Council, but without success. About two months ago they were again pre-sented to the police board, and after some discussion the board agreed to ommend to the Council that they be When the recomm reached the Council, it was referred to reached the Council, it was referred to the Finance Committee. The attorney for the saloon-keepers made a vigorous effort to induce the committee to follow the recommendation of the police board. A majority of the committee, however, reported unfavorably upon the claims, Grider refusing to concur. The majority report, published yesterday in The Times, clearly showed that the claims were wholly without merit, and furthermore that they accrued prior to the current fiscal year, the Council had no right to pay them from

prior to the current necal year, Council had no right to pay them from this year's revenue.

Nevertheless strong influences have been at work to secure the allowance of the claims. When the Finance Committee's report was presented, a motion was made that the matter be referred back to the police board. The tion was made that the matter be referred back to the police board. The motion prevailed, Grider, Nickell, Blanchard, Ashman and Hutchison voting in the affirmative. This was plainly a move to gain time, as it was perfectly obvious that no new light upon the matter could be gained by the reference.

when the matter came before the police board yesterday, the debate was brief. Mr. Gibbon said that one member of the Council had said to him that the reference to the police board was made because the Councilmen who wished to allow the claims feared to do lest they should expose themselves. wished to allow the claims feared to do so lest they should expose themselves to prosecution. Mr. Gibbon said that the Councilmen had the same opportunity to consult the City Attorney as the Police Commissioners had, and he, therefore, moved that the claims be returned to the Council without recommendation. This motion was unanimously adopted. mously adopted.

mously adopted.

The claims will, therefore, again come before the Council next Monday, and definite action will probably then between

taken.
The "wheel of fortune" occupied the The "wheel of fortune" occupied the attention of the commissioners for some time. Deputy District Attorney Chambers was present, and stated that Dist. Atty. Donnell had said to him that he was willing to issue a warrant against those persons who are running the wheel, provided any one would make complaint.

On motion by Mr. Gibbon, the Chief was instructed to take steps at once to put a stop to the wheel.

The Chief was instructed last week to report upon the petition for a saloon license at the corner of Eighth and Spring streets, but his report was not ready and the matter was postponed one week.

before the Council, and the Council-men have since been making some cal-culations which are far from satisfac-tory in their results.

The specifications provided for an addition of 108 new lights, twelve for each ward. As the cost of erecting, these new lights must necessarily be heavy, they are doubtless responsible for the fact that the company's bid was so high. If the bid is accepted this department will be confronted at the close of the fiscal year with a deficit close of the fiscal year with a deficit of over \$9000. This is apparent from the following figures, showing the total amount available, the payments already made in this fiscal year, and the esti-mated outlay for the rest of the fiscal

These figures show that the expenses of lighting must be materially reduced in some manner. It may become necessary to give up the 108 additional lights provided for in the specifications, and readvertise for bids on the basis of the present number of lights. Should this be done, the expense of the department might be brought within the appropriation. Violators of the Milk Ordinance

Health Officer Powers is again after violators of the milk ordinance. A warrant has been issued for the arres of R. Orsi, the proprietor of the City Dairy, on Twenty-third and Main streets. A test was made on October 8 of the milk sold by Orsi, and the butter test gave only 2.6, while the required standard is 3.4.

A warrant has also been issued for the arrest of G. Stolberg, proprietor of the Union Dairy on Central avenue near Florence avenue. On October 8 a test of his milk gave only 2.9 butter fat.

A NEW TURN IN THE RUBIO CAN-YON AFFAIR.

Judge Clark Issues a Writ of Mandate Upon the Supervisors, Or-dering That the Ditch Contractor be Paid His Claim.

In obedience to a writ of mandate is-In obedience to a writ of mandate issued by Judge Clark yesterday, the Board of Supervisors passed an order transferring \$1332.20 to the Rubio Cañon protection district fund to be held subject to the demand of James H. Dovey, the contractor who partially built a ditch to convey the storm water of the Rubio Cañon into Eaton Cañon ditch, a mile distant.

The Legislature of 1895 enacted a law providing for the formation of what is known as protection districts, the object of which was to enable property-owners to combine and, by order of the Supervisors of the various counties, organize themselves and holdings into a corporation and laise funds by assessment for the purpose of construct-ing ditches through which to divert the storm waters from their lands. Upon petition of the property-holders of the Rubio Cañon district, the Supervisors nectition of the property-holders of the Rubio Cañon district, the Supervisors of Los Angeles county organized an area of about twenty-four square miles into a protection Cistrict and a contract was entered into with Mr. Dovey to construct a ditch to relieve that territory of the wash waters coming down from the neighboring foothills by connecting it with the natural ditch in the Eaton Cañon district. Shortly after the commencement of the work several property-owners in the latter section obtained an order from Judge Shaw enjoining the contractor and Board of Supervisors, jointly, from further work on the ditch upon the allegation that the channel which conveyed from their territory the storm waters running from the mountains into their territory was frequently taxed to its fullest capacity, and that an additional volume from the Rubio Cañon would result in the overflowing of the ditch and consequent destruction of property. The State Supreme Court was appealed to and a decision sustaining the injunction was renderd by that body.

Tax Collector Merwin then appeared as a factor in the complication. The district had been assessed for \$9225.18, and he made formal demands for the money. Payment was refused on the ground that the work for which the

money. Payment was refused on the ground that the work for which the taxes had been levied had not been performed. Collector Merwin then instituted foreclosure proceedings to advertise the delinquent property for sale. He was enjoined by the taxbayers in the district upon an order from Judge Van Dyke.

After the organization of the district and the commencement of work on the ditch the Board of Supervisors passed an order agreeing that the county should be liable for one-third of the expense. In July, 1896, another resolution was passed, which provided, owing to the absence of funds on account of the district, for the transfer of \$9225.18 from the county's unappropriated money to the Rubio Cañon protection district fund. The money, however, was never actually transferred, according to the allegations set forth by Contractor Dovey, and the district treasury was therefore empty. The Board of Supervisors admits this point, pleading justification on account of the litigation pending at the time.

At any rate, Dovey's claim has been held to be fair and legitimate, and he will receive his money, although it has been a long time a-coming.

Louis Montariol Charged with Misappropriation of Funds.

Francois Paillac has brought suit against Louis Montaniol for the recovery of \$696 which he alleges is due him from the defendant. In the com-plaint filed with the County Clerk yesterday Francois Paillac asserts that yesterday Francois Pailiac asserts that business relations had existed be-tween himself and Montariol in which the latter had charge of large sums of money. In the settlement of his transactions Montariol, the plaintiff alleges, failed to account for \$696, and he is charged with having appropri-ated this sum to his own use.

Injunction Suit.

The injunction suit of Alexander vs ossler involving the right to the us of a certain name in the butcher busi-ness conducted by the latter, came up before Judge Allen yesterday and was ordered submitted upon briefs after short argument from both sides. Bossler and Alexander had been con-

ducting a meat market at the corner of Twenty-seventh and Main streets for several years but finally, owing to disagreements in their business affairs, they dissolved partnership, Alexander retaining the business. The market had been named "The Bon-Ton." Bossler, shortly after the dissolution opened an opposition establishment just across the street and erected a sign bearing the inscription "The New Bon-Ton Market." Alexander brought suit to restrain his former partner from using the name, alleging that many of his customers were being misled into patronizing his competitor in the belief that they were dealing with the original "Bon-Ton."

Bossler sets up a rather singular defense, holding that there is no chance for confusion as his horses are different in appearance and that his solicitors and delivery clerks wear heavy mustaches whereas Alexander's employés are all smooth-shaven.

A temporary injunction was granted upon application from Alexander, and Bossler now seeks to have it dissolved. lucting a meat market at the corner

McMillan having charged Minehardt with threats to kill him upon sight.

McMillan testified on the stand that Minehardt had promised to "blow him full of holes," and Minehardt swore, with equal emphasis, that the entirestory was a lie. He was just about to enter into details when Justice Young interrupted his harangue with the remark that the case was too frivolous to warrant further time of the court, and a dismissal was ordered.

"That's just about right," interposed Deputy District Attorney James. "The next time one of these fellows enters a complaint a warrant should be issued charging the whole outfit with disturbing the peace, and I will agree to prosecute every mother's son of them to the fullest extent."

The court said something that sounded like. "That ain't no lie," and the crowd dispersed.

Little time was consumed in the selection of a jury, and E. R. Kellam, the complaining witness, was placed upon the stand. Several witnesses followed for the defense, among whom was the boy's mother. Mrs. Dorsey testified that at the time of the fire and for a long time previous, her son had been at home and in bed. Other witnesses testified to the same effect, and the Assistant District Attorney moved that the case be dismissed, as the defense was unable to disprove.

The jury then voted unanimously for acquittal, and young Dorsey was discharged.

Preuss and Uncle Sam.

The case of the United States vs. E A. Preuss was brought up yesterday before Judge Wellborn and dismissed on motion of the United States District Attorney. The suit was over the accounts of Preuss during his postmaster of Los Angeles. He turned in a bill for gas and fuel which the government refused to recognize. It has since been discovered that Mr. Preuss had full authority to make the purchases, so the account has been allowed and the case dismissed.

Senator Stephen M. White gave a very elegant dinner last evening at his residence on South Main street, in honor of the Chief Justices of the Supreme Court. The dining-room was handsomely decorated in red and yellow, the California colors, and autumn ruits. The centerplece was a huge out glass and silver bowl heaped with cut glass'and silver bowl heaped with luscious fruit, and on either side were tail Dresden candelabra holding yellow candles and shades. Through the center, down the length of the table, were sprays of asparagus covered with scarlet berries. From the central chandelier, which was wreathed with smilax and autumn-tinted woodbine, were suspended several large bunches of choice grapes. At each place was a boutonniere of red and yellow carnations, and a scroll of parchment in the form of a tiny legal brief, bearing an appropriate quotation and tied with narrow blue ribbon. The mantel and buffet were massed with yellow chrysanthemums, grape The mantel and buffet were massed with yellow chrysanthemums, grape vines bearing huge bunches of fruit, and festoons of smilax. The fireplace was filled with a glowing mass of red yellow canvass, while about the walls were wreaths of smilax and blackberry vines covered with berries. Pink chrysanthemums and woodbine were effectively arranged about the drawing-rooms. An elaborate menu was served under the direction of Christopher. The guests were Chief Justices Beatty, Harrison, Henshaw and Van Fleet, Judges Clark, Van Dyke, Smith, Shaw, Messrs, George Denis. Prank Hicks, Charles Monroe, Graves, J. S. Slauson, H. T. Gage and Chapman.

Mrs. D. W. Shanks gave a delightfully informal tea yesterday at her
residence on Monmouth avenue in
honor of Mrs. N. A. Morford of Phoenix. Ariz. She was assisted by Mmes.
J. E. Cowles, Louis. Stahl. Kate Kaily
and Rose Randolph. The decorations
were charmingly arranged, pink chrysanthemums and garlands of smilax
being used in the drawing-room and
hall, and yellow and white chrysanthemums and dahlias, ferns and smilax
about the dining-room. The table was
daintily decorated with white cosmos

ADOPT THE HITCHING ORDINANCE.

The Merchants' and Manufacturers' Association has recommended to the City Council a hitching ordinance worthy the name, which should be adopted promptly and likewise enforced to the letter. It prohibits hitching on First, Second, Third and Fourth streets, between Broadway and Main, on Broadway from First to Fourth and on Main and Spring streets from Temple to Fourth. It defines where public vehicles may stand, and the provision is sufficiently liberal in this respect to accommodate both hackmen and their patrons. The proposed enactment was referred to the Board of Public Works, and is now in the hands of that body. For the sake of the city, its cleanliness, the safety, of its thoroughfares and the greatest good to the greatest number, the ordinance should be adopted. It is something that has been needed in Los Angeles all too long, and now that there is relief from an intolerable nuisance in sight, the board which has the matter in hand and the gentlemen of the Council should do the right thing without fear of the coiner's art," the milling, which or favor, and in spite of remonstrances from parties at interest. The streets of this city have been made a byword and a reproach long enough. They should be freed from the nuisance of standing teams and blockading vehicles and turned over to the legitimate uses of the public as thoroughfares, and not kept as ill-smelling lanes between lines of teams and wagons. When the ordinance has once become a law the people of this city will wonder how

they ever got along without it.

The Cubans want no autonomy in theirs, and are pursuing their contest | without the knowledge of the preson to the accompaniment of the famous slogan of Patrick Henry: "Give me liberty or give me death!" Already, even ordinary discipline had been and in face of the peace overtures given out by the new Spanish Cabinet, they have shipped into the islands a big stock of military supplies, and from all appearances seem determined did the inmates of the prison procure to continue the conflict until they have their outfits? And by what means did won or been whipped to a standstill.

This is probably as opportune a time prison officials were half diligent as Cuba will ever have to secure what the performance of their duties? The she has been battling for for so many years, for Spain is in trouble of more within prison walls, reveals an as- the than one kind, and the patriots of the tounding laxness of prison managethe liberty-lovers of the world. Be- the wardenship of the Riverside Penitween the autonomists of Spain, who tentiary is conspicuously apparent come with bribes, and the party that makes a feature of the scheme of an- cident of this kind could occur in a nexation to the United States, stand the men with guns in their hands, grim, resolute, determined and sourceful. They have made a long and able fight, and seem to be determined to "push things" rathed than give way an inch of the headway that has been fixed in our penitentiaries are allowed gained toward absolute independence. Their valor is certainly admirable, and it is not for a country that achieved its freedom by these same methods to all in judgment and may terrors for evil-hoers when the inmates the Cubans are asking too much; instead, the citizen who claims allegiance ties as this case implies. The harvest to Uncle Sam will be found glorying of lawlesoness and crime which we are in the spunk of the flores fighters of the little army that has accomplished so much staid as ocean of disadvantages, and will rejoice to see it win the blessed boon it covets, Vice Cube

The movement made by one of the commercial bodies of the city to work a reform in business methods that have become rank is a needed step forward. Hiegitimacy is as bad in business as in anything else, and the war against faker, frauds and schemes that are not savory should be pursued to the bitter end. Within the past fow months the lottery evil has broken out all over the city. Merchants are offering all nets of "prizes" to attrag trade, and many of them have been compelled to his course against their better judgnest and their own inclinations, in

policy, if not directly contrary to and it should be put on end to cheese-box fighting craft, the Morriand it should be put on end to Any proper and legitimate method of enemy and gone to join the grand army on the other side, whose rester store into a lottery shop he does it at grows these days with gathering a loss of dignity and self-respect, and

of patriots and warriors who battled beneath the banner of the stars there are few more lusterful names than that of John G. Worden, who served his country with such gallantry as to forever enshrine his memory in the hearts of his countrymen, and to set forever his name in history as one who achieved great deeds that liberty might "not perish from the earth." He has gone with his comrades out of the darkness into the light, out of the battle's fury into the bivouac of silence; but behind him lingers a recollection that patriots will ever cherish as a gracious memento of the days of brave, noble and illustrious men.

Prince Bismarck appears to be getting vagarious, so to speak, in his old age; at least one would so judge after reading his rather bitter remarks on the subject of the Monroe doctrine; but as the great Chancellor is only an ex, and as he has reached an age when all sorts of language on his part in permissible, Americans can afford to pass his animadversions by as the utterances of one who was once great. America stands fast on the Monroe octrine, and if anybody thinks it is a chip on the shoulder of Brother Jonathan, let him walk up like a man and knock it off. This country is not hunting trouble, but if it comes the subsequent game will not be sin-gle handed.

The Federal grand jury does not propose to let the matter of the shortage in Collector Welburn's office drop, and that ex-official is to be called upon to explain where the money went if he did not take it; all of which is very right and proper. There was a big look somewhere in the San Franof the grand jury ought to be able to locate the hole and cinch the man or men who made it.

The fame of Spring street is gallop ing over the country until one can scarcely pick up a newspaper printed some reference to its bottomless pits and its asphaltum waves. If the property-owners on that thoroughfare think this is good advertising they are making a rich haul, for they are gotting plenty of it, and free. Meanwhite, when is that resurfacing going to be

The programme for this afternoon contains two harness and three running races. The 2:24 trot promises to be hotly contested, as the three starters are very well matched. As the card is an unsually long one, the first event will be called at 1 o'clock sharp. The entries are as follows:

Plast race, special trot: El Molino,

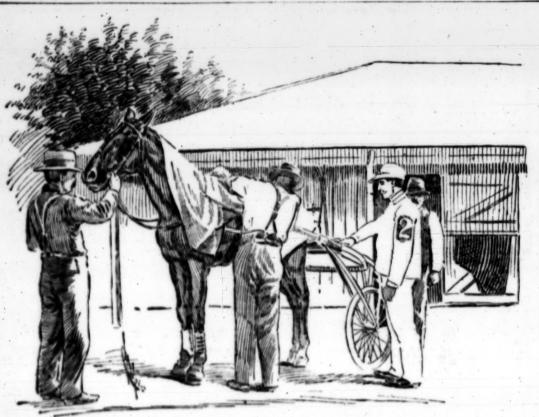

to 10, and Betonica at 20 to 1. In this heat a number of horsemen held watches on the quarters and race, and disagreed with the official timers to an extent that accusations were made to the effect that a quarter second had been added to Anaconda's time in order to keep the horse in Che,2:09 class. The horses at the quarter were going fast, Wheeler in the lead by a length and a half. Anaconda second by eight lengths ahead of Betonica.

At the half Wheeler led by a length, Anaconda second by ten lengths, Betonica.

At the three-quarters Anaconda led by a length, Wheeler second by fifteen lengths ahead of Betonica.
At the finish: Anaconda wins by a length, Wheeler second fifteen lengths, Betonica. Time by quarters: Quarter, 0:324; half, 1:04; three-quarters, 1:354; mile, 2:084.

o:32%; half, 1:04; three-quarters, 1:35%; mile, 2:08%.

The horsemen timed the half at 1:03% and the mile in 2:08 flat, three stop watches in different places in the grand stand agreeing to the tick. Comparison with the former heat gives reason to believe the official timers were wrong. Taking the official time, the quarter in the second heat was paced three-fourths of a second faster than in the first heat; the half in the second

GETTING JOE WHEELER READY FOR THE RACE-A SURR WINNER

there-was no marshal around to obey orders, and Hogaboom cooled off at the paddock, Stimson taking his sulky. Havey said little about being pulled down, but was very angry. Late last night he stated he would scratch every horse he had entered at the meeting. The betting for the fourth heat was prohibitive. Everybody wanted Anaconda. The heat was a gift for the horse who won it, and the race, in 2:11, Wheeler second, Betonica third. The judges may discipline Hogaboom today, as they held that the fourth heat, driven in 2:11, is evidence that Wheeler was not driven, to win in the third heat, which was four seconds slower. The driver can be fined, suspended, or expelled from the association tracks for his conduct toward Ferguson, which was certainly uncalled for, as the starter had nothing to do with unseating the driver, but merely announced the action taken by the judges.

The betting was as follows, with the names of Jockeys appended:

Ostler Joe, Henessy, 4 to 5; Decision, E. Jones, 5 to 1; Coloso, J. Webber, 8 to 1; Los Prietos, McGuin, 8 to 1; Polish, G. The money poured in all night at the poolroom on the great black horse from Montana, and his owner, Mr. Randall, said to the writer: "They may beat me, but if I get off anywhere near them, I'll let 'em know they have been to a horse race. The worst of it lies not so much in the weight, as many might imagine, for weight never tells on a good horse to any extent under a mile. What I have to fear is that, having trained him for long races he will be too slow a beginner."

When the thirteen went to the post in their gaudy silk jackets and their coats gleaming like satin in the mellow autumn sun, it was noticed that Ostler Joe was being ridden in "blinkers," and that Hennessy, one of the most desperate of finishers, was on his back. The starter was greatly hampered by the extreme narrowness of the track for so large a field. He could not handle them to advantage, and three times the barrier flew up to a start so bad that the recall flag was necessary.

When the start was given, Polish was left at the post, and Ostler Joe,

When the start was given, Polish was left at the post, and Ostler Joe, carrying over half the public money, was the eleventh horse away. Decision got to the front almost immediately, and literally raced her head off, while Lorena II was the sixth away. They streamed up the back-stretch in grand style, going to the half-mile in 0:25½, and 0:49½ to the head of the stretch, where Decision began to hang out a sign for the bellows-mender, with Jim Bozeman second, Vishun third and Pescador fourth. Here Lorena II began to move up and become a factor in the beaten ranks of the leaders.

Just then somebody called out, "Look at the old nigger with the specks!"

The time of this race was good, but by no means a record. Yet when the fact is taken into consideration that Ostier Joe was the eleventh herse off to a rather ragged start, and that he was beaten by a nostril at the post, with that good horse Howard behind him, in spite of a concession of two years and 24 pounds, it ranks as a marvelous performance, and stamps "the old nieger with the specks" as a top-notcher in any country. "Doctors will disagree" on many such points, but most liberal-minded turfmen would cheerfuily c-needs that as the watches were started on Decision and stopped on Lorena and Ostier Joe, the black horse must have covered the total distance in about 1:12½, if not faster. Lorena is a very shiftly mare, and has already evinced a fondness for flying at big game, for she it was that, with a less concession of weight, won a rich stake from installator at Sacramento. She was bred by Charles Kerr of Bakersfield, and is by his handsome horse Apache, that "should have died hereafter."

DANGER IN SODA.

Serious Results Sometimes Follow Its Excessive Use.

Common soda is all right in its place and indispensable in the kitchen and for cooking and washing purposes, but it was never intended for a medicine, and people who use it as such will some day regret it.

We refer to the common use of soda to relieve heartburn or sour stomach, a habit which thousands of people practice almost daily, and one which is fraught with danger; moreover, the soda only gives temporary relief and in the end the stomach trouble gets worse and worse.

The soda acts as a mechanical irritant to the walls of the stomach and bowels, and cases are on record where it accumulated in the intestines, causing death by inflammation or peritonitis.

the intestines, causing death by inflammation or peritonitis.

Dr. Harlandson recommends as the safest and surest cure for sour stomach (acid dyapepsia) an excellent praparation sold by druggists under the name of Stuart's Dyspepsia Tablets. These tablets are large 20-grain lozenges, very pleasant or 6.55c and contain the natural acids, peptones and digestion, and when taken after meals they digest the food perfectly and promptly before it has time to ferment, sour and poison the blood and nervous system.

Dr. Wuerth states that he invariably uses Stuart's Dyspepsia Tablets in all cases of stomach derangements, and fluds them a certain cure not only for sour stomach but by promptly digesting the food they create a healthy appetite, increase flesh and strengthen the action of the heart and liver. They are not a cathartic, but intended only for stomach diseases and weakness, and will be found reliable in any stomach trouble except cancer of the stomach. All druggists sell Stuart's Dyspepia Tablets at 50 cents per package.

OUTPOINTS THE MISSION GIANT LAST NIGHT.

A Clever Boxing Bont Which W Strictly on Its Merits

MEN WERE IN CONDITION.

Two Lively Preliminary Battles-Great Programme Arranged for Friday Night When Parker and Thomson Will Meet.

A thousand people saw Jack Stelz-ner outpoint and win from Joe Mc-Auliffe at Hazard's Pavilion last night. It was a fair fight, a game fight, but evoid of any startling features, and the result was no surprise to those who knew the men, although McAuliffe was made a favorite in the betting. There was no knockout, and but one knockdown in the scrimmage, and very little blood spilled, but it was a good fight for all that, and one that was enloyed by every lover of sparring pres-

JACK STELZNER, WINNER OF THE BIG FIGHT LAST NIGHT.

He is big enough, willing enough and game enough to whip any man on earth, if he only knew how. There's the trouble. He is slow and clumsy, and, as stated days ago, cannot cure himself of the habit of sending a tele-gram to his opponent ahead of his blows. He was punished worse last night than people imagined, but was not disfigured to any extent. The blows that hurt were body blows.

steizner disappointed many of his admirers, although he shows great improvement in his work since last seen here in the ring. At times he seems to lose his head, and fights like a windmill, doing his opponent no damage, and leaving himself wide open to a knock-out blow if a clever, quick man was against him. He gave McAuilffe at least forty pounds in weight last night, and would have been better had he saved a few pounds, as he found himself too light when he went up against the "Giant" in the rushes. Once he knocked himself down from the force of the recoil of his own blow. It is hard work for 170 pounds to topple over 215 pounds with a punch.

The evening's sport opened with a bout between Charles Smith of this city and George Baker of Denver. They fought six rapid rounds, Smith whrning on points.

Phil Green of Oakland and White-

ning on points.

Phil Green of Oakland and Whiteside, colored, of Los Angeles were next
for ten rounds. The men were most
unevenly matched, and Whiteside kept
going down to avoid punishment without a blow. Whiteside could hit, aswas shown when he knocked Green
clear off his feet in the third round,
and Green retaliated by knocking
Whiteside down. Finally, after warning the colored man four or five times
against going down without a blow,
Prof. Young Dutchy, who was refereeing the fight; gave Green the decision.
Then came the event of the evening.
Henry Edelman entered the ring and
simply stated that if John Brink, who
had been chosen referce, found at any
time the fighters were faking, he was
to stop the match and the men would
not get a dollar. Mr. Brink was then
introduced. Dan Lynch of San Francisco was selected as timer for McAuliffe and E. W. Michelsen for Stelzner, while Harry J. Monahan held the
watch for the club. In the corners
were Dan Burns, Joe King, Bob Thompson and Prof. Young Dutchy behind
McAuliffe, and Dan Long, Jack Carter
and Frank Barton seconded Stelzner.
McAuliffe weighed 215 and Stelzner.

Third round—Stelzner still keeping away and rushing in. McAuliffe leads and is too slow. Stelzner tries to reach the wind and McAuliffe lands a hard left on his face. Clinch, and Stelzner wresties the big fellow to his knee.

Fourth to sixth rounds—McAuliffe continues to force matters, but does no good. Stelzner lands frequently on body and twice on chia, but blows were apent before they landed. Anybody's fig.t.

Seventh round—Stelzner rushes, lands right) and left on body! Clinch. McAuliffe lands hot one on Stelzner's head and shakes him up. McAuliffe labs on the face. Stelzner lands a right swing on McAuliffe's neck and falls from the force of his own blow. Stelzner has a boil on right forearm and in quarding it gets hit once or twice. He seems to flinch. Round closes with hot exchange but no damage. Stelzner has the best of it.

Eighth round—Stelzner takes the play and lands twice on head. McAuliffe's nose bleeding again. McAuliffe can't reach him. Swings hard and is again countered on the face. Stelzner's round easy.

easy.

Stelzner keeps jabbing and getting away from McAuliffe's swings. The big' one seems tired, but is anxious, and takes punishment in the hope of getting a chance to land. Stelzner not hitting hard. At he close of round, Referee Brink announces that in case he is unable to reach a decision at the end of the 'ifteenth round, he will order three additional rounds. Thirteenth round—McAuliffe starts with a rush and lands a joit on Stelzner's topknot that makes him cautious. Clinch. McAuliffe lands body clow. Stelzner counters on head and in the wind. This is McAuliffe's round.

Fourteenth round—Stelzner much quicker and eager. Lands repeatedly on head and neck, but cannot bring McAuliffe's ear, and the big one clinches. It is Stelzner's light so far. Round fifteen and last—Stelzner mixes things from the start and lands right and left an McAuliffe's head, getting away without return. McAuliffe bleeding, but full of fight. He misses again and again. Stelzner lands on nose and wind at call of time.

The referee gives Stelzner the fight. The decision gave universal satisfaction, even to those who had their money bet on McAuliffe. Before the fight McAuliffe sold at \$20 to Stelner's \$12, but from the seventh round on the odds changed and Stelzner was made a favorite at as good as \$25 to \$5 for the Mission Boy.

When seen in his dressing-room after the battle McAuliffe said: "I'm not hurt any and not tired. I have no fault to find with the decision. I couldn't fight a little bit tonight. I don't know what's the matter with me. I was never in better condition in my life."

Stelzner said: "The only place he hurt me was hitting this boil on my arm, and that does hurt, hurts bad. I am strong and in shape for another fiften rounds if need be. I knew I had the fight, but McAuliffe is an awful hard hitter. He hit me two punches on the top of my head, and had either of them landed where he intended them I would have been done for. As it was they shook me up so that I stayed away for a round. The fight was on its merits, of that you

What a woman needs who is thus affected is to strengthen the ligaments so they will keep her organs in place. There is nothing better for this purpose than Lydia E. Pinkham's Vegetable Compound. Mrs. Pinkham has received this year from those she has relieved—surely such testimony is convincing:

"My trouble commenced after the birth of my last child. I did not know what was the matter with me. My husband went to our family physician and described my symptoms, and he said I had displacement and falling of the womb. He sent me some medicine, but it did little good. I let it go on about two years, and every time I did any hard work my womb would come down. Finally a lady friend advised me to try Lydia E. Pinkham's Vegetable Compound, which I did. The first bottle helped me so much, I continued to take it right along. My back was almost the same as no back. I could not lift scarcely any weight. My life was just a drag to me. To-day I am well of my womb trouble, and have a good, strong back, thanks to Mrs. Pinkham's Vegetable Compound."—Mrs. L. Markow, Milford, Ill

Timely warnings of the approaching storm were received from the Weather Bureau by the raisin-makers, who had ample time to put drying raisins under cover, hence no damage was done to the crop. Orchards were greatly benefited by the rain. Highest temperature, 74 deg.; lowest, 48 deg. La Costa: Cool, threatening weather culminated in a heavy downpour of rain on the night of the 13th and morning of the 14th, amounting to over 2 inches. This was greatly in excess of any previous storm at so early a date. Very little damage occurred to hay, grain and dried fruits, as they were mostly safely housed. There were numerous washouts on the roads. Fall plowing has begun. Valley Center: There was a rainfall on the 14th amounting to 1.54 inches.

Plowing Begun for Next Year's

Plowing Begun for Next Year's Crops—Grain and May.

PóMona, Oct. 19.—[Regular Correspondence.] Plowing for grain for the coming year has already begun, the storm of last week having put the soil in good condition. This section has few lines of industry of more importance than grain, and hay, and during the past few months the quantity of grain hay which has come into town from the back country has been very great. Several large warchouses have been built to receive the overflow from those previously standing, and no small amount has been shipped. In addition to this is the great yield from the alfairafields south of town. These two sources have brought in a revenue of many thousands of dollars, and the recent raise in price of hay has benefited a large number of people here. Since the Paiomares Hotel was opened, the first of this month, word has been received from a number of eastern people stating that they would spend the winter in Pomona. Many of the residents of this place will have friends at the hotel the coming season, and there is thus good indication that the city will harbor more strangers during the coming winter than at any time for several years.

A PRODUCE EXCHANGE. The produce exchange, proposed by Max Meyberg to be held every morning, on the Los Angeles-street side of the Merchants' and Manufacturers' Association exhibition hall, in the building now known as the Crystal Palace, to which reference was made in The Times recently, is a good idea, if it could be carried out, but, Judging from the difficulty which has hitherto been experienced in getting producers to associate for their own good, Mr. Meyberg will not find the job an easy one. In fact, he has already got some idea of this kind, having recently sent out forty postcards to persons interested, asking them to attend a meeting, to which only one replied, in person.

Of the need of a produce exchange in Los Angeles, there 'can be no doubt, whatever. At present there is no definite system of fixing prices, which makes it inconvenient all around, not only for the producer and the commission men, but also for the man who tries to gather the latest quotations.

The Los Angeles-street people claim that under the present lack of system the market is demoralized, because producers will drive in, and after selling out as much of their produce as they can to restaurants, and even private houses, will come and offer the remainder to the commission men, asking perhaps a higher price than they may have obtained from hotels or consumers.

Mr. Meyberg's proposition is that produce exchange, proposed by Max Meyberg to be held every morning, on

smaller by degrees that the weight of bread in Los Angeles is growing "smaller by degrees and beautifully less." In some cases the loaf is said to have dwindled down to eleven ounces, which is not "very fillin" at the price," as Sam Weller would say.

At a recent meeting of bakers, held in San Francisco, to talk over the result of the great increase in the price of wheat, it was decided, after a long discussion, not to increase the price of bread just now, on account of the keen competition from small bakeries, but to diminish the size of the loaf. In some States there is a law regulating the weight of a loaf of bread, it would be a much more business-like plan to increase the price, when necessary, rather than to save on the weight. Complaint is made by the public that while bakers are usually quite ready to take advantage of any rise in the price of wheat, by raising the price of the loaf, they are, on the other hand, slow in reducing the price of bread, or diminishing the size of the loaf, whenever wheat takes a downward course.

GENERAL BUSINESS TOPICS

AMERICAN BEET-SUGAR PRO-

AMERICAN BEET-SUGAR PRODUCTION. Commenting upon a recent
statement of Mr. Wilson, the Secretary
of Agriculture, that he believed the
United States would be exporting sugar within ten years, the San Francisco Chronicle, in its agricultural depariment, says:
"It is our belief that before many
years most countries of the world willproduce their own sugar, and that the
international sugar trade will be merely
a flerce competition among a multitude
of producers for the disposal of their
surplus in northern and wet climates.
In this competition the fittest will survive, and it is our belief that in splis
of our handicap of long transportation
Calfornia will be selling sugar when
others have gone out of the business
that the big money is to be made before
we begin to export, and the livelier the
people of this State move in the matter
the quicker the dividends will begin to
come in."

DOPED AND ROBBED.

J. Cripe Awoke Under Strange and Painful Circumstances.

When John Cripe woke up yesterday norning, he did not know where he was "at." The shining brass knobs at the top of the posts of the bed on which he reclined were quite unlike anything about his own humble couch. There was another knob, not of brass, bu quite as shiny and perhaps made with

brass knuckies, over his right eye.

There was also an abrasion of the skin on his right temple.

Cripe could not account for his strange surroundings and the pain in his head. It had to be explained to him that he was in the public Receiving

his head. It had to be explained to him that he was in the police Receiving Hospital and how he came there.

All the patient could remember was that he was John Cripe from Santa Monica, that he was a railway section hand working at Vernon; that he came to the city Monday evening with 185 in gold in a purse to buy a suit of clothes, and that he had, besides, a few deliars in silver in his pocket. He recollected going into a saloon on First street to get a glass of wine. There were two men in the saloon besides the barkeeper. He took one or two drinks, but not enough to make him drunk, Nevertheless, he saddenly lost consciousness, and there Cripe's story leaves off.

The next chapter is told by Officer Robn, who found Cripe sitting against the side of a saleon at the corner of First and Wilmington streets about 2:30 a.m. The fellow appeared to be in a drunken stuper, and had a wound on his right temple, which looked as though it might have been made by staggering against a fire-alarm box close by. Itchn rang for the patrol wagon, and Cripe was sent to the station, where he was broked for medical treatment instead of drunkenness. He had all the symptoms of mid suffering from the effects of some narcotic drug, and it was several hours before he woke up. next chapter is told by Offices

and it was several nours before he woke up.

Cripe was released about noon as curred, and when he called at the clerk's desk for his valuables, he found only 20 cents in his package. The \$65 in good, a few dollars in silver, and the watch which he claimed to have had the previous night had vanished.

Cripe thinks he was "deped" and robbed in a First-street saloon, but he could not remember the name or exact location of the place. Detectives are working on the case, but they have as yet no proof that a robbery was committed, except Cripe's statement and the circumstantial evidence as to the man's condition when he was taken into custody.

POLICE INSPECTION.

Mayor Snyder and Commissioner Gibbon Address the Coppers.

The regular monthly police inspection yesterday was more than ordinarily rigid. The men, in full-dress uniform were first put through their paces by Capt. Roberts on Broadway, and afterward in the assembly hall at the sta-tion, the Police Commissioners and Mayor Snyder being interested specta-tors. The uniforms, belts, revolvers, etc., of the men were carefully inspected, and most of them were complimented on the condition in which they kept their accoutrements. Mayor Snyder and Commissioner Gibbon addressed the assembled force; calling attention to the necessity of keeping a high ideal in view as to the appearance and conduct of the force, individually and collectively. It was the object of the commission to raise the standard of efficiency of the force. Good men had no reason to fear strict enforcement of rules and regulations. The people were taxed heavily for police protection and had a right to expect good service. The men were exhorted to brace up generally and be a credit to their calling. of the men were carefully in
